Stakeholder Feedback Report on Curriculum 2021-22

The feedback mechanism is well established in the institution. Every year IQAC takes initiatives to collect feedback on curriculum from students. IQAC has designed a Google form with five questions as mentioned below. The link is shared with students through Head of Department with proper notification. After collection of feedback from the students, the excel sheet generated from student response is shared with concerned head of department. The departments organize a meeting and discuss over students' feedback. Some of the departments collect feedback from students on their own which are brought to discussion in the meeting. Finally, the departments draft analysis report for the discussion in BOS meeting. In BOS meeting students' feedback on curriculum is considered for discussion, and if required relevant changes are made in syllabus with consensus of all members. ATR (Action Taken Report) is prepared by individual departments and submitted to IQAC. The reports of individual department are considered for discussion in Planning and Evaluation Committee, Academic council.
