222	Ugral Pratik Rajesh	B.Sc. III	1) Teacher should guide students for their future, Not only till taking admission in their subject in final year. 2) Teachers should encourage students to participate in extra curricular activities. 3) Teaching process should be focused on practical learning and application based. In our institution teachers are always try to complete syllabus not only in case of semester and exam but also in case of courses such as skill course etc. Student who had skill course such as programming any programming language they do not know anything about the programing they only studied for exam. Teaching process will be fun if they focus more on a skill based approach. Marks doesn't matter but still matters.

III	Feedback Mechanism:** Implement a robust feedback mechanism where students can provide anonymous feedback on the teaching methods, course content, and overall learning experience. This feedback can be used by instructors to make necessary adjustments and improvements. Technology Integration:** Leverage technology to supplement traditional teaching methods. This could involve using online learning platforms, multimedia resources, and virtual simulations to cater to different learning styles and enhance accessibility to educational materials. Additionally, providing training and support for both students and instructors on using these technologies effectively can further improve the learning experience.

316	Sayyad Fariya Faruq	M.Sc. Comp. Sci. II	Teaching is very great. Teachers are also very good in teaching, knowledge and support. But one thing I found is that most of the times students are not appreciated for their ranks and achievements. The college appreciates first ranker by prize distribution but

			<p>there is no prize provided for second and third rankers. So sometimes it feels very disappointed that only 1 rankers are appreciated with prize and not second and third rankers. Overall teaching, performance and placement is very good but it feels that appreciation by giving prizes to some students is lacking here.</p> <p>Observation</p> <p>1. I observed only one thing to improve here is to appreciate all three rankers and not just first ranker.</p> <p>Else everything is good.</p>

356	Tiwadi Rishi Navneet	B.C.A. III	First i can proudly say that I'm pursuing degree in one of the best institute of solapur and first autonomous college of solapur. But I think college must have experienced staff, second is there is need to have good communication between staff and students in point of view of technical field and third is teaching should be in English language for student's reference, somehow Marathi is ok but every other stuff should be in English it'll help to both students and teachers for improvement in languages...i wanted to suggest 2 another things is staff have to use projector in class for programming and coding for running codes it may help to understand code easy way and for while teaching theory subject on projectors staff need to give notes too at the movement after the explanation.... thank you!!
357	Tolnur Viresh Gajanan	B.B.A. II	No Need to improve
358	TONAGE ARTI GANGARAM	B.Lib	
359	Torangi Shrinath Basavraj	B.C.A. III	No placements at all , lack of proper experienced teaching staff , improper evaluation of internal marks , not able to resolve all the questions/doubts asked by the students, If the students asks questions/ asks doubt again n again teachers start targeting the individual and deduct internal marks :)
