13	<p>Event Summary: A historical trip of students was organized on 20/03/2024 at the Ramalingappa Lamature Museum, Ter. Eleven students participated in the trip. Ter is a historical village in Dharashiv district. This village is a Satavahana period city and is called Tagar. It has a history of 250 BC to 227 BC, that is, the Satavahana dynasty ruled for almost 475 years. During this period, 30 kings passed. Information about the situation during the Satavahana period is available. In the excavations at Paithan, Ter, Nashik, Karad, Kolhapur, Nevase, female and male idols, household items used during that period, ornaments, coins, idols of gods and deities, etc. have been found. At that time, houses made of solid bricks and thatched roofs were there, and there was a good sewage system. All the temples currently located in Ter, the Trivikram Temple, Uttareshwar Temple, Nilkantheshwar Temple, Mahadev Temple, were built in the fourth century AD from the fifth to the sixth century AD. We can still see examples of the architectural art and excellent construction of those temples today. Various objects in the museum include Virgal, Sati Dagad, a brick floating on water, Lajja Gauri, molds, Archana Kund, Gokarna, clay lamps, Panchadeep, Magellanic vessels, Jain pilgrimage sites, coins, God's tanks, pots, castes, idols of Shadu, conch shells, elephant tusks, etc. Various types of objects are available in this museum. The guide Rajshree Birajdar gave information about all these objects and the museum to her students.</p>

Subject/: One Day Industrial Visit of PG chemistry students for field project work

Respected sir

As mentioned in above subject our department of Chemistry has planned to visit your esteemed company on 13/ 04 /2024.

Our PG Chemistry students must understand and see the company atmosphere mainly processing, QC unit, production, R &D section, and ETP plant etc. Also, they have to prepare their study report on ETP plant. This visit will be helpful for their curricular activities and career development. We are also requesting you to permit us about initiation of process of Memorandum of Understanding (MoU) in coming days between your company and Sangameshwar College, Solapur. It will be an honor for us to exchange our students through this initial step of collaboration.

We are looking forward to receive an affirmative response from you

13	Event Summary:	Research is fundamental to advances in human society. It emerges from our innate desire as human beings to seek to improve our lives and to control the world around us. To do this we have to improve our understanding and our insight – we have to know how things work (or don't work). So that we can find different ways to use them or make them more efficient.
