

Internal Quality Assurance Cell

Quality assessment of the institute today is done through the external agency called National Assessment and Accreditation Council (NAAC). Sangameshwar has a rising curve in its first two cycles. The institute is heading for its third cycle. The ranking is very instrumental for the learners while choosing their dream institution. Higher ranking means higher support from the funding agencies for greater academic ambience. The NAAC ranking is the academic status for the institute in its enriched curriculum, standard infrastructure, research facilities, and adequate support services to make learning memorable and meaningful. The coveted A grade is a testimony of quality to any institution.
