### Student Satisfaction Survey report 2023-24

The institution with greater vision to spread education in general and to instruct in any branch of knowledge wherever and whenever feasible. The institution has provided the suitable environment for students to develop their creativity, intellectual capabilities. The ultimate objective is to develop all round personality. The institution provides worldclass infrastructure that support learning environment.

Any improvement in the process depends on analysis of reliable feedback. IQAC used Master Soft ERP to collect feedback on as questionnaires given for SSS by NAAC under SSS guidelines. The objective was to meet the vision, mission and institutional goals through collecting reliable, exact and appropriate feedback on institutional facilities. The link for questionnaires and manual to provide feedback was shared with students through WhatsApp group notifications of concerned departments and collected the responses along with suggestions of students. 1264 students had given feedback on questionnaires of SSS. The response of students on SSS was shared with concerned authorities or HODs of concerned department. The data was analysed and discussed with concerned authorities through IQAC. Feedback system helped IQAC to rectify the errors, technical problems and sustain quality in education.

Students were invited to participate in SSS survey from all four faculty that is faculty of Arts , Science, Commerce and Professional Courses and Management Sciences. 176 students from Arts faculty, 134 students from Science faculty, 471 students from Commerce and 483 students from Professional Courses and Management Sciences participated. The specific programme wise details of student's participation is as shown in following table.

- Incorporate Active Learning Strategies: Observation: Traditional lectures often result in passive learning where students may not engage deeply with the material. Suggestion: Implement active learning techniques such as group discussions, problem-solving activities, and interactive case studies. This approach encourages students to engage with the content more actively and promotes better understanding and retention.

- Here are some suggestions to improve teaching in an institution:

1. **\*Professional Development\***: Provide regular training and workshops for teachers to enhance their skills and knowledge.
2. **\*Technology Integration\***: Incorporate digital tools and resources to make learning more engaging and interactive.
3. **\*Personalized Learning\***: Encourage teachers to tailor their instruction to meet individual students' needs and learning styles.
4. **\*Feedback Mechanism\***: Establish a system for students to provide feedback on teaching methods and course materials.
5. **\*Collaboration\***: Foster a culture of collaboration among teachers to share best practices and resources.
6. **\*Real-world Applications\***: Encourage teachers to connect theoretical concepts to real-world scenarios and practical applications.
7. **\*Assessment Variety\***: Use diverse assessment methods to evaluate student learning, including project-based assessments and peer review.
8. **\*Student Engagement\***: Encourage active learning techniques, such as discussions, debates, and group work, to increase student engagement.
9. **\*Parent-Teacher Communication\***: Regularly update parents on student progress and involve them in the learning process.
10. **\*Institutional Support\***: Provide teachers with necessary resources, support staff, and facilities to create a conducive learning environment.

Remember, every institution is unique, so it's essential to identify specific areas for improvement and develop strategies tailored to your institution's needs.

**Give three observation / suggestions to improve the overall teaching – learning experience in your institution.**

- 1. Personalized Learning: Implement tailored instruction to cater to diverse learning styles, abilities, and interests. Use technology and assessments to identify students' strengths and weaknesses, and adjust teaching methods accordingly.

2. Interactive Engagement: Encourage active participation through discussions, group activities, hands-on experiments, and real-world applications. This fosters a deeper understanding, develops critical thinking, and keeps students engaged.

3. Regular Feedback and Reflection: Provide constructive feedback and encourage self-assessment. Regularly solicit student input to refine teaching strategies and address areas needing improvement. This collaborative approach promotes a growth mindset and continuous growth.
